

ITALY AND AUSTRIA AT WAR

Battle Line in the East Extends Along Front of 250 Miles

HEAD OF FORMER SULLIVAN TRUST CO. IS IN JAIL ON A FEDERAL WARRANT

(By Associated Press.)
LOS ANGELES, May 22.—With Lawrence (Larry) Sullivan, a former Goldfield promoter, and five others in jail on federal warrants charging illegal use of the mails, the government and city detectives have continued their investigations of the Hermosillo and Louisiana lotteries in San Francisco and Oakland. It is reported that many arrests will be made, not only on the coast but in New Orleans and other cities. According to J. P. Buckley, one of those under arrest, Sullivan undertook to "protect" the lottery agents for \$100 a week, representing himself as an employee of the district attorney.

THREE MINING COMPANIES SHIP BULLION

Yesterday was a busy one for the Wells-Fargo, which forwarded three batches of bullion, while a fourth went out this morning. The total weight of the consignments was 298,347 ounces, there being 158 bars of gold and silver, each as heavy as a strong man would care to lift.

As reported yesterday, the Extension shipment consisted of 42 bars, weighing 81,480 ounces and valued at \$2,982. The Belmont, which made two shipments yesterday, the value of which had not been reckoned in time for yesterday's Bonanza, sent 49 bars, weighing 97,612 ounces, valued at \$32,447.60, from the Tonopah mill and

from their plant at Millers they forwarded 35 bars, weighing 57,815 ounces, worth \$27,579.75, a total for this company of \$101,027.55. This morning the Tonopah Mining company shipped 32 bars, weighing 3840 pounds, from the Desert mill, the shipment being worth \$35,250. Thus the grand total for the two days, which represents the cleaning up by these companies for approximately two weeks, was the tidy little sum of \$189,259.55, for three of the seven producing properties in the district, excluding the concentrates, which will be forwarded at the close of the month.

LAVA MELTS SNOW, CAUSING A FLOOD

(By Associated Press.)
REDDING, Cal., May 22.—Part of the rim of Mount Lassen's crater has caved in. Hot creek valley for fifteen miles is covered with mud as a result of the flood. Crops are destroyed. The extent of the damage is not yet known. Investigators reported that they were compelled to return on account of the flowing mud.

It is said there is great heat at Lassen.

(By Associated Press.)
SAN FRANCISCO, May 22.—Lava from Mt. Lassen has melted the snow and caused a flood, according to the report of Forest Supervisor Rushing. He said that the fact that the glow has been observed at night gives credence that the lava melted the snow.

BIG PANNINGS OF THE WHITE METAL

JACK HUMPHREY STRIKES HIGH
GRADE ON BLOCK 2 AT
SYLVANITE

(Special Bonanza Correspondence)
SYLVANITE, May 21.—Jack Humphrey of Manhattan struck fine high grade ore this morning at 11 o'clock on block No. 2, 300 feet south of the original discovery, in running a cross-cut to find the vein. The first values were found at two feet from the surface and at three and one-half feet down he struck horn silver that pays values estimated to go anywhere from \$150 to \$500 a ton. This strike extends the known ore zone a good 300 feet in length and goes a long way to prove that it is not a mere chimney of ore that has been discovered. Mr. Humphrey is now hard at work to prove up the extent of the ore body and values. The strike will undoubtedly stimulate the search for the extension of the vein by those who have secured leases on this very promising property.

Mr. Riddell has just completed a blacksmith shop on the Lucky Jim claim about 100 feet east of the ore camp and is now in good shape to prosecute development on the company's reserved block of ground. Pannings from pieces of ore the size of a walnut yielded from one-half ounce to an ounce of silver which in the opinion of old timers is sure going some.

SEARCH THUS FAR IS UNAVAILING

NO CLEWS TO WHEREABOUTS OF
DAN LAMBURN DEAD OR
ALIVE

Eight days have elapsed and the mystery of Dan Lamburn's disappearance is still unsolved. Search parties are out daily, but they have found no clues. The belief that he either committed suicide or met a natural, or accidental death in the hills is growing. His dogs were taken to Volcano, where Lamburn formerly had property, but they were unable to find traces of him. The mother dog returned to Tonopah this morning, but the pup is still running through the hills in the neighborhood of his master's former camp. The Knights of Pythias and Western Federation of Miners members are particularly industrious in the search which now seems to lead nowhere. Mr. Lamburn has disappeared as completely as though he had never existed.

COMMITTEE MEETING TONIGHT

All the committees on the observation of Memorial Day are notified to meet this evening at 8:15 in the Elks' home to present reports. Other than committee members invited.

JACK PECK WINS TROPHY

In the rifle match with Manhattan last Sunday Jack Peck tied two Manhattan men for first place and also won the club trophy for higher score.

TEMPERATURE REPORT

Highest temperature yesterday, 62; a year ago, 77.
Lowest temperature last night, 41; a year ago, 54.

Fire department team is just as determined that they won't. A big crowd and a snappy game are expected.

BARNES TO FOOT BILL ROOSEVELT CASE

(By Associated Press.)
SYRACUSE, May 22.—The jury in the trial of Barnes' suit against Roosevelt returned a verdict in favor of the defendant after considering for more than eleven hours the question of placing all costs upon the plaintiff. The belief of the jurors is that everything with which Roosevelt was charged is true, but that the plaintiff is not entitled to damages. Several persons waved their hands but there was no outburst of applause, the court

having warned the spectators. The colonel thanked the jury. "It certainly was a typical American verdict," said Edward Burns, the juror who yesterday said he was for the plaintiff. He changed his mind this morning. Forty ballots were taken.

MANY AMERICANS BRAVE DANGER ZONE

ITALIAN RESERVISTS RETURN
TO DO BATTLE FOR THEIR
COUNTRY

(By Associated Press.)
NEW YORK, May 22.—More than 2500 passengers are booked to sail for Europe today on five steamships. There will be more than a hundred Americans on the steamer St. Paul. Many Italian reservists, including William Marconi, are returning.

FEDERAL PRISONERS RECEIVE SENTENCE

JAIL AND FINE FOR TAKING PART
IN RECENT MANILA
OUTBREAK

(By Associated Press.)
MANILA, May 22.—Twelve participants in the outbreak against the government on Christmas were today sentenced to prison and fined. The sentences varied from three to six years. The judge said the men were of a low class and were led by persons who hoped for monetary gain.

TAKING TESTIMONY CONCLUDES AT LAST

JUDGE MARK R. AVERILL WILL
EXAMINE MINING GROUND
IN DISPUTE

The case of Clar vs. Plourd et als was concluded yesterday afternoon in the fifth judicial district court, so far as the taking of testimony is concerned. All that remains is for Judge Averill to visit the property in dispute, which consists of mining ground at Tonopah, after which the argument will take place at a date yet to be determined.

Upon the conclusion of this trial, the court yesterday afternoon took up the case of Thomas Ross vs. M. J. Kelly et als, which also involves title to Manhattan mining ground. The trial will run well into next week.

MOBILIZATION OF FORCES IS ORDERED

(By Associated Press.)
ROME, May 22.—The king has signed the act conferring extraordinary powers on the government "for the duration of war. The Austrians are reported concentrating in large forces along the upper Adige river.

FATALITY LIST GROWS

(By Associated Press.)
CARLISLE (Eng.), May 22.—Thus far 73 bodies have been taken from the wrecked trains.

CARRANZA TAKES MONTEREY

(By Associated Press.)
LAREDO, Texas, May 22.—Carranza troops occupied Monterey today.

TODAY AND A YEAR AGO

Official readings of the thermometer by the United States observer at Tonopah:

	1915	1914
5 a. m.	41	54
9 a. m.	52	64
12 noon	61	68
2 p. m.	65	70

PROBLEM IS SOLVED BY BRITISH CHEMIST

GLASSWARE, FORMERLY IMPORTED
FROM GERMANY, NOW
MADE IN ENGLAND

(By Associated Press.)
LONDON, May 22.—Formulas for making the finer glasses for which Great Britain has been dependent on Germany have been solved by the glass research committee of the Institute of Chemistry. Unbreakable glass for miners' lamps and glass capable of standing high degrees of heat, test tubes, retorts, steam gauges and the like had been entirely imported from Germany. But analyses of glass of this kind, conducted at King's college, London, by Prof. Herbert Jackson, T. P. Merton and assistants, have at last been helpful in suggesting synthetic experiments. The work involved a careful study of the chemistry of silicates, aluminates, borates and the like in relation to the manufacture of glass. As the result, the research committee reports eleven formulas, which have been subjected to rigorous practical tests to prove their suitability. Among the most successful is one for miners' lamps—a matter of great importance in the coal mining districts.

The formulas have been put at the service of the manufacturers without charge in order that these special glasses may soon be produced on a large industrial scale.

MODERN TORPEDO IS WORTH A FORTUNE

INSTRUMENTS OF WARFARE ARE
TINY SUBMARINES IN
THEMSELVES

(By Associated Press.)
LONDON, May 22.—The torpedoes now being used in the British navy cost from \$3500 to \$5000 to construct, according to a naval expert. Even the newest British torpedoes are less expensive than those used by the latest German submarines, which have a diameter of 21 inches, and travel at a speed of 48 knots an hour, having an effective range of seven miles. The internal mechanism includes a high speed rotating engine, shafts and gears, and 250 pounds of high explosive.

TROOPS MASED ON ITALY'S FRONTIER

(By Associated Press.)
PARIS, May 22.—A Rome dispatch says that the king has signed a decree ordering a general mobilization of the country's forces on land and sea.

COLONIAL ARMY INFLECTS PUNISHMENT UPON TURKS AT DARDANELLES, WHILE THEIR OWN LOSSES ARE BUT NORMAL

(By Associated Press.)
LONDON, May 22.—King Emmanuel will issue today a proclamation to the people stating that Italy has reached a decision for war, and appealing for support of the government's policy. Another royal proclamation will be addressed to the army and navy. Although Italy and Austria are virtually at war, no reports have been received of actual hostilities. A train from Italy, however, was seized by Austrians, who arrested the crew. There were patriotic demonstrations last night at Rome and also at Vienna. The opening of the war is expected perhaps without an exchange of formal declarations.

A great battle is raging along a 250-mile front on the eastern line. The Teutons are still on the offensive. General Hamilton has reported that the Australians inflicted a loss of 7,000 on the Turks at the Dardanelles, the Australians losing only a few hundred men.

SHIP JOINS LUSITANIA IN THE DEPTHS

(By Associated Press.)
BEREHAVEN, May 22.—The British sailing ship Glenholm was submarine of Berehaven. The crew was rescued. Berehaven is on the southern coast of Ireland, about sixty miles from where the Lusitania sank.

THREE TRAINS COLLIDE—MANY ARE KILLED

(By Associated Press.)
CARLISLE, England, May 22.—Three trains collided here today and at least fifty people are dead, mostly soldiers. The casualties number 400. Fire added to the horror of the accident. One was a troop train, another a local, and the third an express from London to Glasgow.

GERMANS DISCOVER SECRET OF A POWDER

BELGIANS USED EVERY PRECAUTION
TO PREVENT ITS
BEING KNOWN

(By Associated Press.)
HAVRE, May 22.—News has been received from Holland to the effect that the Germans have discovered the secret of the manufacture of a special powder produced at the Cautelle factory near the Dutch border in Belgium and are keeping the works going night and day. When the Belgians evacuated the region they flooded the powder magazines instead of blowing them up. The Germans reopened the factory immediately on occupying the region but the employees refused to work and were expelled into Holland.

The laboratories had been walled up and secret underground vaults containing plans and archives enclosed in heavy masonry and then covered with earth. The Germans explored the ground continually and finally unearthed the secret. They are said to have succeeded in drying 30 tons of powder that had been flooded. The powder manufactured there was of a special kind used in cartridges made at the national arms factory at Herbstal near Liege.

HISTORIC STRUCTURE HAS NARROW ESCAPE

CHURCH OF ST OLAVE'S APPROACHES
DESTRUCTION
FROM FIRE

(By Associated Press.)
LONDON, May 22.—The ancient church of St. Olave's, where Pepys, the diarist, is buried, recently had a narrow escape from a fire that destroyed a large cork factory nearby. Pieces of burning cork rained on the roof of the church, which dates from 1450, and was one of the few churches to escape the great fire of London. When firemen reached the roof, the timber covering the water cistern was ablaze, but no further damage was done. The buildings in the district are old and congested.

DONNING NEW DRESS

The L. O. O. F. building, having become the headquarters for the Nevada Telegraph and Telephone company and undergone remodeling within, is now adorning itself in a handsome coat of paint.

BUTLER THEATRE TONIGHT

A Gorgeous Film Presentation
of
